### About Me

As a chemical engineer who has worked in male-dominated spheres and industries for 15 years, I understand the challenge clearly; we need more females in engineering, and at all levels of any organization. Why? Because women bring a different perspective, another angle of thinking and creativity that is necessary to sustain and improve the world as we know it. In order to create a better tomorrow we need to act today. My aim is to inspire girls and young women to enter the engineering field, and empower those who have made it in their #STEM careers to rise from being good to GREAT.

MY JOURNEY

## BRENDA DENBESTEN

[www.brendadenbesten.com](http://www.brendadenbesten.com)

- Professional Website for Chemical Engineer and #WomenInScience advocate Brenda Mataka-Denbesten
